DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Niestradt (US Patent 1,580,155), Badger (US Patent 561,367) or Hess (US Patent 2,891,451).

The device of Niestradt, Badger or Hess teaches the structural limitations of the claimed invention including a portable planar (23 and 142; D; or 45, respectively), a carriage (11 and 12; C or 26), a pair of rails (4; b or 25), a support (6; c2 or 13a), means for attaching (5; c3 and c4 or 29) , a work piece support (2; b3 or 12) and horizontal and vertical support members (fig. 1; fig. 2 or fig. 2), extending posts (21 of Hess), at least one shim (17 of Hess) and a first planar blade (45a). Regarding claim 5, the Examiner takes the position that post of Hess is welded to the bottom of the rails (Note: The claims recite a product by process).

Allowable Subject Matter

Claims 8-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
